SUMMARY

Hi, I'm **Alfi Nur Danialin**, a graduate of Informatics Engineering with expertise in **Front-End Developer Designer**. I'm a creative and multi-skilled Front-End Developer with a unique blend of technical development and visual design skills. Armed with a foundation of React.js, and Tailwind CSS, I build responsive and user-friendly interfaces. My design skills are honed through years of experience creating branding assets, digital content, and UI mockups using Figma, Adobe Photoshop, and Canva. Passionate about delivering visually appealing and highly functional user experiences, I thrive in collaborative environments that blend creativity and precision. Furthermore, I have excellent communication skills and can work in a team, balancing positioning and prioritizing.
